

Ducane - Concord AC and HP Louver Changes

In our ongoing efforts to continuously improve our Ducane and Concord AC and HP products we have transitioned from an integrated louver and corner post design to an independent louver and corner post design. This design is intended to improve structural integrity and provide easier access to the coils for cleaning and inspection.

Old Integrated louver and corner post

New Independent louver and corner post

The affected models will have a new “-number” ending. AHRI requires new reference numbers whenever there is a dash number change. We have listed the affected models and the HSVTC AHRI reference # for the current/previous products in the chart on the next page.

If you have any questions regarding these changes, please contact Jeff Jasuta, Senior Product Manager, at jeff.jasuta@alliedair.com.
